

News story: ATM merger faces in-depth investigation

Both companies – Cardtronics plc (Cardtronics) and DirectCash Payments (DCP) – are independent ATM deployers supplying cashpoints to site owners, such as convenience stores and pubs.

Independent ATM deployers face competition from banks and building societies to supply ATMs to large site owners in high ‘footfall’ locations such as supermarkets, shopping centres or transport hubs. However independent ATM deployers also supply smaller non-corporate customers whose cashpoints typically have lower numbers of transactions and are often pay-to-use.

Cardtronics and DCP supply both free-to-use and pay-to-use ATMs.

Following its initial investigation, the Competition and Markets Authority (CMA) believes that, in those local areas where there is insufficient competition from rival ATMs, the merger could lead to increased surcharge fees for customers withdrawing cash. Given the potential lack of suitable sites and the cost of supplying new ATMs, entry into these local areas by competitors would not be sufficiently likely to prevent an increase in fees.

The merger will now be referred for an in-depth phase 2 investigation by an independent group of CMA panel members – unless Cardtronics is able to offer undertakings which sufficiently address the substantial lessening of competition in relation to supply of ATMs to users on a local basis.

Cardtronics has until 10 May 2017 to offer undertakings that might be accepted by the CMA. If no undertaking is offered or accepted, then the CMA will refer the merger for a phase 2 merger investigation. Further details on the investigation can be found on the [case page](#).

Press release: March 2017 Price Paid Data

HM Land Registry Price Paid Data tracks land and property sales in England and Wales submitted to us for registration.

This month’s Price Paid Data includes details of over 96,500 residential and commercial land and property sales in England and Wales lodged for registration in March 2017.

Notes to editors

1. Price Paid Data (PPD) is published at 11am on the 20th working day of each month. The next dataset will be published on 30 May 2017.
2. [Price Paid Data](#) is property price data for all residential and commercial property sales in England and Wales that are lodged with HM Land Registry for registration in that month, [subject to exclusions](#).

3. The following information is available for each property:
 - the full address
 - the price paid
 - the date of transfer
 - the property type
 - whether it is new build or not
 - whether it is freehold or leasehold
 4. Price Paid Data can be downloaded in txt, csv format and in a machine readable format as [linked data](#) and is released under [Open Government Licence \(OGL\)](#). Under the OGL, HM Land Registry permits use of Price Paid Data for commercial or non-commercial purposes. However, the OGL does not cover the use of [third party rights](#), which HMLR is not authorised to license.
 5. Price Paid Data includes Standard Price Paid Data (SPPD) for single residential property sales at full market value and Additional Price Paid Data (APPD). The information available for each property will indicate whether it is APPD or SPPD and the record's status – addition/change/deletion (A/C/D). This includes transactions previously excluded from SPPD such as:
 - transfers to a non-private individual, for example a company, corporate body or business
 - transfers under a power of sale (reposessions)
 - buy-to-lets (where they can be identified by a mortgage)
 6. The [Price Paid Data report builder](#) allows users to build bespoke reports using the data. Reports can be based on location, estate type, price paid or property type over a defined period of time.
 7. As a government department established in 1862, executive agency and trading fund responsible to the Secretary of State for Business, Energy and Industrial Strategy, HM Land Registry keeps and maintains the Land Register for England and Wales. The Land Register has been open to public inspection since 1990.
 8. With the largest transactional database of its kind detailing over 24 million titles, HM Land Registry underpins the economy by safeguarding ownership of many billions of pounds worth of property.

Press release: FOREIGN FLAGGED SHIPS UNDER DETENTION IN THE UK DURING APRIL 2017

During April, there was one new detention of foreign flagged vessels in a UK port. Four vessels remained under detention from previous months. A total of three vessels remain under detention at the end of April.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high risk rating and poor detention records to be targeted for future inspection.
3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure if at all possible.
5. When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on Mandatory Surveys for the safe operation of regular Ro-Ro ferry and high speed passenger craft services (1999/35/EU).

Notes on the list of detentions

- Full details of the ship. The accompanying detention list shows ship's International Maritime Organization (IMO) number which is unchanging throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.
- Company. The company shown in the vessel's Safety Management Certificate

(SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.

- Classification Society. The list shows the Classification Society responsible for classing the ship only.
- Recognised Organisation. Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the Flag State
- White (WL), Grey (GL) and Black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag State.

[Greens call for emergency intervention](#)

into air pollution crisis

3 May 2017

The Green Party is calling for an emergency intervention into the air pollution crisis ahead of the publication of the Government's draft air quality plan [1].

Jonathan Bartley, Green Party co-leader, spoke at an assembly at a London school this morning and called on the Government to clean up the UK's filthy air, which is linked to 40,000 early deaths every year.

The demand comes as new figures reveal the cost of taking a bus, coach and train has soared while the cost of travelling by car has dropped dramatically between 1980 and 2016 [2].

The cost of motoring, including purchasing a vehicle, has fallen by 20% since 1980, while rail fares have risen by 63% and bus and coach fares are up by 64%.

The High Court ruled on Thursday (April 27) that the Government must publish its draft air pollution plan before May 9 [3].

Bartley said:

"It's astounding the Government had to be forced to reveal its plan for tackling air pollution and squandered taxpayers' money fighting to keep it a secret. Our filthy air is linked to the early deaths of 40,000 people every year and any delay in tackling this crisis is unacceptable.

"The stark difference between the cost of travelling by car and taking public transport lays bare how little this Government cares about tackling the problem at its root. If we keep pushing people into cars instead of promoting rail and public transport, our air is only going to get dirtier and harder for our children to breathe.

"The Green Party is the only party committed to taking immediate action on air pollution, with investment in cycling, walking, electric vehicles and public transport. We'd also properly fund and expand the Clean Air Zone network and introduce a Vehicle Excise Duty for new diesel vehicles alongside a diesel scrappage scheme."
