

News story: Losing GSI – MHRA emails are changing

From 10 April, we are removing .gsi from our email addresses.

Launched in 1996, the Government Secure Intranet (GSI) has been used until now to guarantee the security of emails sent by Government agencies and Arms Length Bodies. Technology has changed a lot since 1996 and the GSI is now being phased out across Government.

What's changing?

Our new email addresses will be more secure, and the new system will protect against anyone trying to forge our domain name (the @mhra bit) and sending emails that claim to be from MHRA.

What do I need to do?

Update your MHRA email contacts and remove .gsi from our email addresses. Update any tools that use MHRA email addresses

Emails sent to email addresses including the .gsi will continue to be forwarded until further notice.

If you have any questions about this change or require more information please contact us on info@mhra.gov.uk

This change only affects email addresses ending in mhra.gsi.gov.uk –all email addresses ending in nibsc.org will remain the same.

This is an extremely serious revelation that contradicts past assurances about the role of the Bank of England in the Libor scandal – McDonnell

John

McDonnell MP, Labour's Shadow Chancellor, responding to reports

that the Bank of England was involved in the Libor rigging, said:

“This is an extremely serious revelation that contradicts past assurances about the role of the Bank of England in the Libor scandal.

“It goes to the very heart of whether our financial institutions can be trusted. Therefore, it warrants an immediate high level investigation, and the Chancellor must act straight away to ensure this happens.”

[Press release: Foreign Secretary condemns Egypt terror attacks](#)

The Foreign Secretary Boris Johnson said:

I am saddened and appalled by these attacks in Egypt, and strongly condemn them. My thoughts are with the Egyptian people and particularly those directly affected by these terrible acts. I offer my condolences to those grieving for lost friends and relatives, and those suffering from injuries.

The UK continues to stand with Egypt against terrorism. These attacks only strengthen our determination to work together with the Egyptian government and people against this shared threat.

[Plan to scale back wildlife](#)

protections and climate change action just a snapshot of absurdity of extreme Brexit, say Greens

9 April 2017

Green Party Animals Spokesperson: 'If the revelations are reliable, they offer just a snapshot of the absurdity at the heart of Theresa May's Brexit.'

The Government's [apparent plan](#) to weaken wildlife protections and 'scale back' Britain's climate ambitions reveals the absurdity of Theresa May's extreme Brexit agenda, according to the Green Party's Animals spokesperson.

Keith Taylor MEP, who is also a member of the European Parliament's Environment Committee and the global Climate Parliament, said:

"If this proves true, it amounts to a promise to sacrifice vital and hard-fought safeguards in a grubby, and plainly desperate, attempt to secure toxic trade deals with nations who have little respect for wildlife or climate change – the most pressing issue we face globally. That the revelations come just days after [India made it clear](#) Theresa May could not rely on Britain's colonial past to expedite trade negotiation is extremely telling. Just over a week on from triggering Article 50 and it would appear the Government is beginning to realise the economic realities of the Prime Minister's extreme Brexit agenda."

"Nobody voted to throw away wildlife safeguards or jettison vital climate ambitions. EU wildlife protections and climate change targets are some of the strongest and most ambitious in the world; proof positive of the value of working with our European Neighbours to tackle cross-border challenges. The best and easiest way of maintaining these regulations post-Brexit is through continued membership of the Single Market. Instead, 'secret documents' reveal the Government wants to 'scale back' our ability to tackle wildlife crime and ignore the urgent need to mitigate the worst effects of climate change – all in a desperate rush to secure damaging free trade deals to compensate for the economic shock of being yanked out of the Single Market. If the revelations are reliable, they offer just a snapshot of the absurdity at the heart of Theresa May's Brexit."

"Greens will continue resisting an extreme Brexit that threatens our precious wildlife and our ability to tackle climate change."
