

## Speech: “Russian words are not the same as Russian deeds.”

Thank you Mr President – and let me take this opportunity to welcome you in open session to your role as President of the Security Council for the month of February. I commend you for the start that you have made and I support your proposal for a Presidential statement on this important issue.

As our briefers have made clear, we begin your Presidency, sadly, in troubling times for Eastern Ukraine.

The worrying upsurge in fighting in that part of your country should concern us all. It is claiming yet more lives, both civilian and military. It is aggravating the suffering of those living there, forcing more to flee their homes. There is no end in sight.

In cities like Avdiivka, people talk of an endless salvo of artillery and rockets. They talk of failing electricity and falling temperatures, of burying loved ones in the snow.

These events have not come out of the blue, they are not new. This Council knows all too well the root causes of this violence and instability.

This is what happens when Russia disregards Ukraine’s sovereign right to choose its own destiny. This is what happens when Russia undermines Ukraine’s territorial integrity by illegally annexing Crimea. This is what happens when Russian military personnel stand side by side with separatists that they have equipped, armed and trained.

And this is a reality that the Security Council cannot, must not accept. We need urgent action to bring an end to this upsurge in violence before it spirals out of control.

I want to pay tribute to the efforts of the OSCE and the Joint Centre for Control and Coordination to bring about a truce to allow crucial repairs. These will help restore vital utilities and allow for the evacuation of civilians. I urge all parties to support these efforts and facilitate access to the area for humanitarian actors.

But such actions are just a band-aid on a bullet wound. For any fragile, short-term truce to become a comprehensive and sustained ceasefire, all parties must show restraint. This means, in particular, ending the extensive use of high calibre, indiscriminate weapons such as GRAD rocket systems. The use of these weapons from, and against, civilian areas is not only in disregard of the Minsk agreement, it is also an abhorrent rejection of the norms of conflict. They must be withdrawn from the line of contact as stipulated in the Minsk agreement.

We also need to tackle the underlying causes of the fighting. It is clear that any solution to the Ukraine crisis must be political not military, as we

all recognised in Security Council Resolution 2202. The Minsk agreements are the only meaningful path to long-term peace in Ukraine.

So let us urge all sides to recommit to meeting their full obligations under Minsk. We support the continued efforts of France and Germany within the Normandy format towards securing full implementation and we are extremely grateful for the enormous investment that they have made in the process to date.

Mr President, let me close with this final thought.

We frequently hear from the Russian Government, as we did today, that all the problems in eastern Ukraine are the consequence of actions by the Ukrainian Government. This is simply not the case. It is an inversion of reality. The responsibility of the inception and continuation of the conflict in eastern Ukraine lies squarely with Russia and the separatists it supports.

As the British Prime Minister made clear in Washington last week, the United Kingdom will continue to stand by Ukraine in full support of its sovereignty and territorial integrity.

The international community, most recently through the UN General Assembly's resolution on Crimea in December, sent the same clear message to Russia. And earlier this week, this whole Security Council, including Russia, expressed the very same thing in an agreed statement – that we support Ukraine's sovereignty and territorial integrity.

But, Mr President, Russian words are not the same as Russian deeds.

We need to see Russia comply with its Minsk commitments. We need to see Russia stop equipping and arming the separatists, and instead use its influence to make sure the separatists meet their Minsk obligations.

And we need to see Russia withdrawing its forces from all of Ukraine. This includes Crimea – the illegal annexation of which we do not and will not recognise. Sanctions against Russia cannot be lifted until this happens.

It's for the people of Ukraine to decide their country's future. Ukraine must be allowed to make its own sovereign decisions.

Thank you.

---

**[Press release: Planned roadworks in East Midlands: weekly summary for](#)**

# Monday 6 February to Sunday 12 February 2017

The following summary of planned new and ongoing road improvements over the coming week is correct as of 03 February but could be subject to change due to weather conditions or unforeseen circumstances. All our improvement work is carried out with the aim of causing as little disruption as possible.

## **M1 junction 28 to 35a, Nottinghamshire/Derbyshire/Yorkshire: smart motorway**

There will be various restrictions in place on the M1 between junctions 28 and 35a to allow for the construction of the smart motorway. These include lane closures, speed restrictions, hard shoulder running and overnight slip road or carriageway closures.

On Monday 6 February the southbound entry slip road at junction 29a; the northbound exit slip road at junction 33; the southbound up and over at junction 34; the southbound carriageway from junction 33 to 32; and junction 33 entry slip road will be closed overnight from 8pm until 6am.

On Tuesday 7 February the entry and exit slip road at Tibshelf motorway service area on the southbound carriageway; the northbound entry and exit slip road at junction 31; the northbound exit slip road at junction 33; the southbound up and over at junction 34; the southbound carriageway between junction 33 to 32 and the southbound entry slip road at junction 33 will be closed overnight from 8pm until 6am.

On Wednesday 8 February the entry and exit slip road at Tibshelf motorway service area on the southbound carriageway; the northbound carriageway between junction 32 and 33 and the M18 southbound to the M1 northbound link will be closed overnight from 8pm until 6am.

On Thursday 9 February the southbound entry slip road at junction 29a; the northbound carriageway between junction 32 to 33 and the M18 southbound to M1 northbound link road will all be closed overnight from 8pm until 6am.

On Friday 10 February the southbound exit slip road at junction 29a; the northbound carriageway on the M1 between junction 32 and 33 and the M18 southbound to the M1 northbound link road will all be closed overnight from 8pm until 6am.

On Saturday 11 February the M1 northbound up and over at junction 32 and junction 33 will be closed overnight from 8pm until 6am.

On Sunday 12 February the M1 northbound up and over at junction 32 and junction 33 will be closed overnight from 8pm until 6am.

## **M1 junction 19 to 16, Northamptonshire: smart motorway**

From Monday 6 February until Friday 10 February there will be overnight lane closures on both the southbound and northbound carriageway.

Lanes one and two will be closed northbound from 6 February to 10 February between 9pm and 6am. On the southbound carriageway lanes one and two will be closed on 6 and 8 February between 9pm and 6am.

## **[Press release: A64 safety improvements due to start](#)**

From:

First published:

3 February 2017

Part of:

A series of improvements are being carried out on the A64 this month, which will improve safety for drivers.

Contractors for Highways England will begin a number of projects which include renewing the safety barrier, improving signage and drainage and resurfacing a footpath.

Work will start next week, Monday 6 February, to stabilise a drainage ditch which runs alongside the eastbound exit slip road at Brambling Fields in Malton increasing flood resilience in the future. Work will take place between 7.30am and 6pm, and is expected to last for three weeks.

To carry out the work as quickly and safely as possible, the eastbound exit slip road will be fully closed 24 hours a day for the duration of the works and at times there will be a lane 1 closure on the eastbound A64 just past

the slip road.

Highways England project manager Adeeb Saeed said:

This is essential maintenance which will strengthen the drainage ditch to protect it from eroding and ensure that it provides effective drainage in the future.

Work will also start next week to replace sections of the safety barrier between Grimston and Hopgrove.

This work will be carried out overnight between 8pm and 6am under lane closures to keep disruption to a minimum for drivers.

There will also be a temporary speed limit of 60mph for the safety reasons due to us working on the safety barrier.

The following week work is due to start to renew the safety barrier and improving the signage around Scampston Bridge.

And later this month work will start on resurfacing the footpath on the A64 Pickering westbound entry slip road. This will involve lane closures between 9.30am and 3.30pm.

## **[News story: Defence Minister visits a hub for Queen Elizabeth Class Carrier Programme](#)**

The Minister visited some of the aircraft and met with personnel stationed at the base. RNAS Culdrose is the heart of the naval air fleet, where naval aviators train. The base is an important part of the programme, which will deliver the two Queen Elizabeth Class (QEC) aircraft carriers, the largest warships ever built in the UK and from which the UK's new F-35B Lightning II jets will fly.

After visiting the Merlin training facility, the Defence Minister saw the Dummy Flight Deck, designed to train QEC aircraft handlers among others, where she witnessed live training exercises. The skilled aircrew and engineers at the base specialise in anti-submarine warfare and Airborne Surveillance and Control.

**Minister for Defence Procurement Harriett Baldwin, said:**

It was an honour to visit one of Europe's largest helicopter bases and meet the men and women behind its success. The state-of-the-art facilities are helping to test and safeguard our maritime aircraft capacity.

The base provides 3,000 civilian and military jobs and is one of the biggest single-site employers in Cornwall, pumping £100m into the local economy every year, bringing welcome regional investment.

Many of the Merlins based at Culdrose will be fitted with the Crowsnest system, as [announced recently](#) in a £269 million deal. The system will act as the eyes and ears for the Royal Navy's ships, providing long range air, maritime and land detection and tracking capability. Crowsnest is an important step in the ambitious carrier programme, which will be vital to protect the new vessels.

**The Commanding Officer of RNAS Culdrose, Captain Danny Stembridge ADC said:**

It was a privilege to welcome the Defence Minister to Culdrose this week, and to discuss the vital role its people continue to play in the defence of our nation. She visits at a very important time for us; whilst we continue to deliver our primary roles of protecting the Nuclear Deterrent and supporting Counter Terrorism, we are also getting ready to defend the Royal Navy's Carrier Task Groups.

HMS Queen Elizabeth, the Nation's new flagship, will sail into Portsmouth Harbour this year and Naval Air Power will be at the forefront of this nation's deployed capabilities. It is essential that we at RNAS Culdrose are ready to play our important role in this exciting new venture. Indeed, aircraft from 820 Naval Air Squadron, will be the very first to land on the flight deck of the new carrier.

The Minister also visited A&P Group and World Fuels at Falmouth docks. A&P support and maintain the Royal Fleet Auxiliary's four Bay Class ships, one of which is currently stationed in The Gulf. Last year the ships conducted operations in the Caribbean and Mediterranean.

**Minister for Defence Procurement Harriett Baldwin said:**

I am delighted to be in Falmouth, which has a vital ship repair capability, sustaining jobs and part of a UK-wide carrier effort.
