

# [Greens respond to carbon capture plans](#)

## [2. Press Releases](#)

Reacting to the government announcement of investment in carbon capture and storage projects, Green MP and party co-leader Adrian Ramsay said:

“Labour has spent too long listening to the pleadings of energy companies for major public investment in unproven technological solutions like carbon capture that simply won’t deliver the immediate real change we need.

“This announcement is no substitute for the urgent and immediate investment needed in home and business insulation to cut energy use and the increased renewables funding that is badly needed to meet future energy needs.”
