Dialogue

Office of the Spokesperson

Washington, DC
October 3, 2017

On September 29, 2017, the United States and Ukraine held the first Bilateral Cybersecurity Dialogue in Kyiv.

Having a longstanding and diverse diplomatic and security relationship, the United States and Ukraine aim to strengthen our cybersecurity cooperation, an important component of our countries' strategic partnership. By working together we will strengthen our resilience against cyber threats, to ensure the Internet remains open, interoperable, reliable, and secure.

The interagency delegations that participated in the Dialogue represent the whole range of governmental institutions whose responsibilities include preventing, detecting, and responding to cyber threats.

The United States and Ukraine reaffirm our desire to cooperate on enhancing national cybersecurity, and improving cooperation between our respective governmental institutions, and private sectors.

Acknowledging that cyber threats are among the most significant challenges to global and national security, the United States and Ukraine support the development of a framework of responsible state behavior that includes affirmation of the applicability of international law to state conduct in cyberspace, adherence to additional voluntary, non-binding norms of state behavior that apply in peacetime, and the development and implementation of practical confidence-building measures to reduce the risk of misperception and conflict.

The United States and Ukraine also support cybersecurity cooperation through the NATO framework.

Both governments recognize the importance of existing U.S.-Ukrainian cyber cooperation related to recent incidents, and discussed increased cooperation as a means to prevent similar incidents in the future.

Press Releases: Sentencing of Ilmi Umerov, Deputy Chairman of the Crimean Tatar Mejlis

Press Statement
Heather Nauert

Department Spokesperson

Washington, DC
October 3, 2017

The United States is deeply troubled by the September 27, conviction and two-year prison sentence for Crimean Tatar leader Ilmi Umerov in Russian-occupied Crimea. He was convicted for his opposition to Russia's attempted annexation of Crimea and given a harsher sentence than the Russian occupation prosecutor requested. This compounds past injustices in the case, including his confinement for several weeks of punitive psychiatric treatment in 2016. We call on the Russian occupation authorities to immediately release Umerov and vacate his conviction. Crimea remains an integral part of Ukraine, and the United States remains steadfast in its support for the territorial integrity and sovereignty of Ukraine.

Press Releases: On the Expulsion of Cuban Officials from the United States

Press Statement
Rex W. Tillerson

Secretary of State

Washington, DC
October 3, 2017

On October 3, the Department of State informed the Government of Cuba that it was ordering the departure of 15 of its officials from its embassy in Washington, D.C. The decision was made due to Cuba's failure to take appropriate steps to protect our diplomats in accordance with its obligations under the Vienna Convention. This order will ensure equity in our respective diplomatic operations.

On September 29, the Department ordered the departure of non-emergency personnel assigned to the U.S. Embassy in Havana, as well as all family members. Until the Government of Cuba can ensure the safety of our diplomats in Cuba, our embassy will be reduced to emergency personnel to minimize the number of diplomats at risk of exposure to harm.

We continue to maintain diplomatic relations with Cuba, and will continue to cooperate with Cuba as we pursue the investigation into these attacks.
