

Press Releases: H-2A Agricultural Worker Visa Modernization Joint Cabinet Statement

Secretary Acosta, Secretary Nielsen, Secretary Perdue, and Secretary Pompeo

When President Trump addressed the American Farm Bureau Federation in January of this year, he reminded the audience that his commitment to our farmers has been clear since the day his Administration began: “From that day on, we have been working every day to deliver for America’s farmers just as they work every single day to deliver for us.”

In keeping with that commitment, our Departments are working in coordination to propose streamlining, simplifying, and improving the H-2A temporary agricultural visa program – reducing cumbersome bureaucracy and ensuring adequate protections for U.S. workers.

The Trump Administration is committed to modernizing the H-2A visa program rules in a way that is responsive to stakeholder concerns and that deepens our confidence in the program as a source of legal and verified labor for agriculture – while also reinforcing the program’s strong employment and wage protections for the American workforce. In addition, by improving the H-2A visa program and substantially reducing its complexity, the Administration also plans to incentivize farmers’ use of the E-Verify program to ensure their workforce is authorized to work in the United States.

As the agencies tasked with administering or facilitating the H-2A visa program, and thus closest to farmer and labor stakeholders, the Departments of State, Agriculture, Labor, and Homeland Security are embarking on a process to modernize the H-2A visa program by clarifying and improving the regulations governing the program. We look forward to delivering a more responsive program soon.
