Wokingham Conservative AGM

At the Earley AGMs on Thursday 14th June and at the Wokingham Conservative AGM on Friday 25th June I spoke about the work I have been doing in a number of important areas.

- 1. Housing numbers and a new local Plan
- 2. The need for an economic policy to fight recession
- 3. Measures to be taken to ease the cost of living squeeze, including some incorporated in the recent government package
- 4. A new energy policy for the Uk to reduce import dependence
- 5. Home grown food and the countryside
- 6. Social care needs
- 7. Tackling health waiting lists

Recent posts on the main website give more the background to my remarks for those interested.
