Creating a Truly Relaxing Environment

The image shows the 2 and 4 interment options of welters Multi-material mausolea which can be installed in a number of configurations. With granite front facias for inscription, decorative columns and stainless-steel spires, the units can be sold as family or community mausolea.

Family & Communal Memorial Stones

welters Environmental rock products can be produced on an individual basis or as a communal memorial stone as shown, situated in the idyllic bluebell wood. The memorial stone can be made to order to provide any number of memorialisation opportunities for the community.

Muslim Single Interment Burial Chambers

Prepared for an early morning dispatch. High levels of stock mean that the chambers can be delivered to site with a minimum lead time, for supply only or supply and installation.

welters® Environmental Orb & Rock Memorials

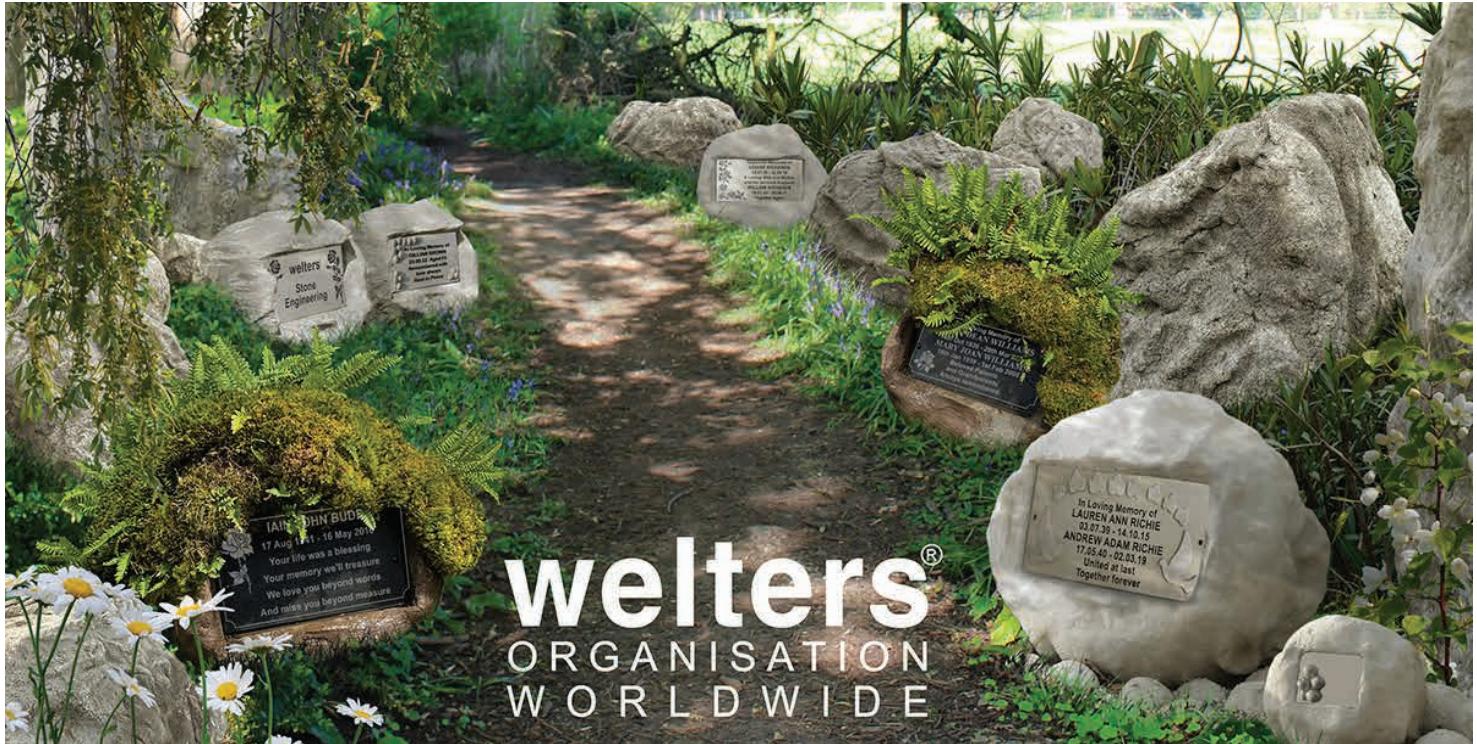

Memorial Orbs. Available in 1, 2 or 4 cremated remains interment options or as a memorial only. Can be supplied with embellished stone or granite tablets.

Made in Britain with British Stone and British Manufacturing teamwork.

welters® Environmental Orb & Rock Memorials

The below image shows Stone Orb & Rock Memorials in situ along a path. The memorials can be installed in any number of locations.

welters Stone Embellishments

These memorial housings are stacked prior to being packed for dispatch. The light reflects off the embellishments, emphasising the beautiful design detail. The housings can be purchased as single units or in large quantities for cremated remains memorialisation.

- Decorative stone obelisk
- With ball feet and base plinth
- Approximately 1.8m tall

Design Sculpture Excellence

Welters dominant skills excel in Great British production of Artistic elements which will form a significant part of National History. The emphasis on Environmental focus throughout the process is a major contributing factor to the success of the enterprise.

welters®
Environmental Orb
& Rock Memorials

The opposite image shows a collection of Environmental Rocks & Standing Stones scattered along a path.

The rocks & standing stones can be installed in any number of locations.

welters® Environmental Orb & Rock Memorials

The below image shows a Communal Memorial Stone and Environmental Rocks in situ along a path. The memorial and rocks can be installed in any number of locations.

Ellery Hill

On the windswept Ellery Hill, a Borderland aligned with lands upon which the English and Scots transgressed for many a year, the Spring splendour of the enticing sunshine last weekend temporarily overcame the demoralising emissions of political events and medical catastrophes with Nature's power and overwhelming supremacy, showing us all Hope for the future.

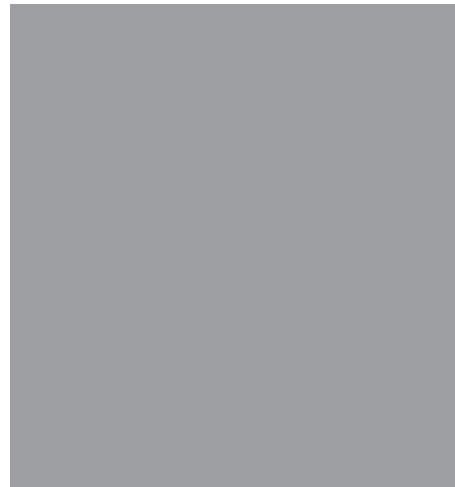

Sheltering in a deep footprint of a previously passing Native Bovine were to perfect and peaceful DAISY Blooms - the only Blooms seen over many acres that day.

Handmade in Britain Memorials

A beautiful and peaceful setting merges with the finest, handmade in Britain, memorials which showcase our British design ethos. Made to uphold true global architecture perfection.

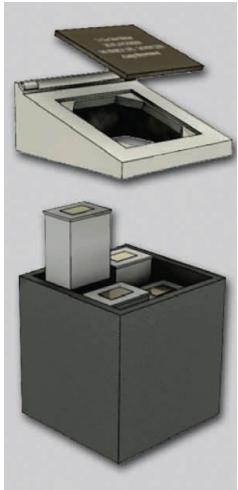

The memorials are designed as 'safe systems' to negate Cemetery Authority health and safety regulations for headstones and sit amidst multiple interment burial chambers.

Continuous Product Dispatch

Continuous supply of welters customer products to many industries nationwide. Manufacture, supply and delivery of all welters products has continued throughout the winter and now progresses through spring and on towards the summer months.

welters® Cremated Remains Interment Memorials

Desktop Memorial System
with or without a below ground
chamber for interment of
cremated remains

Made in Britain with British Stone and British Manufacturing teamwork.

welters® Cremated Remains Interment Memorials

The below image shows a row of back to back Desktop Memorials in situ along the side of a path. The memorials can be installed in any number of locations.

Made in Britain

Some say time now for change – is this an obvious joke?

We have been shouting advocacy for the last 30 years over the British essential need to utilise all native and national facilities in the ingenious use and encouragement of resource culture in opposition to the sloppy desire to require and use imported product which will eventually prove catastrophic.

Pursuit of this principle will also be the final 'nail in the coffin' of all logical procedure and thought process.

Attention should have, and must now, be given and joyfully pursued in all aspects of self-sufficiency. Basic food, energy and lifestyle, linked with material usage and employment are all key elements to a satisfactory planetary compliance.

Let us stop immediately 'the tail wagging the dog'.

Welters continues to ensure that the British environmental solution works successfully amidst the myriad of doubters and vested interest opponents that muster the negative lobbyist.

Company News

As we finally start to emerge from the cold winter weather, we continue apace with our on-site product and systems installations, as well as advancing our manufacturing facility to continue to provide our products on a supply only basis.

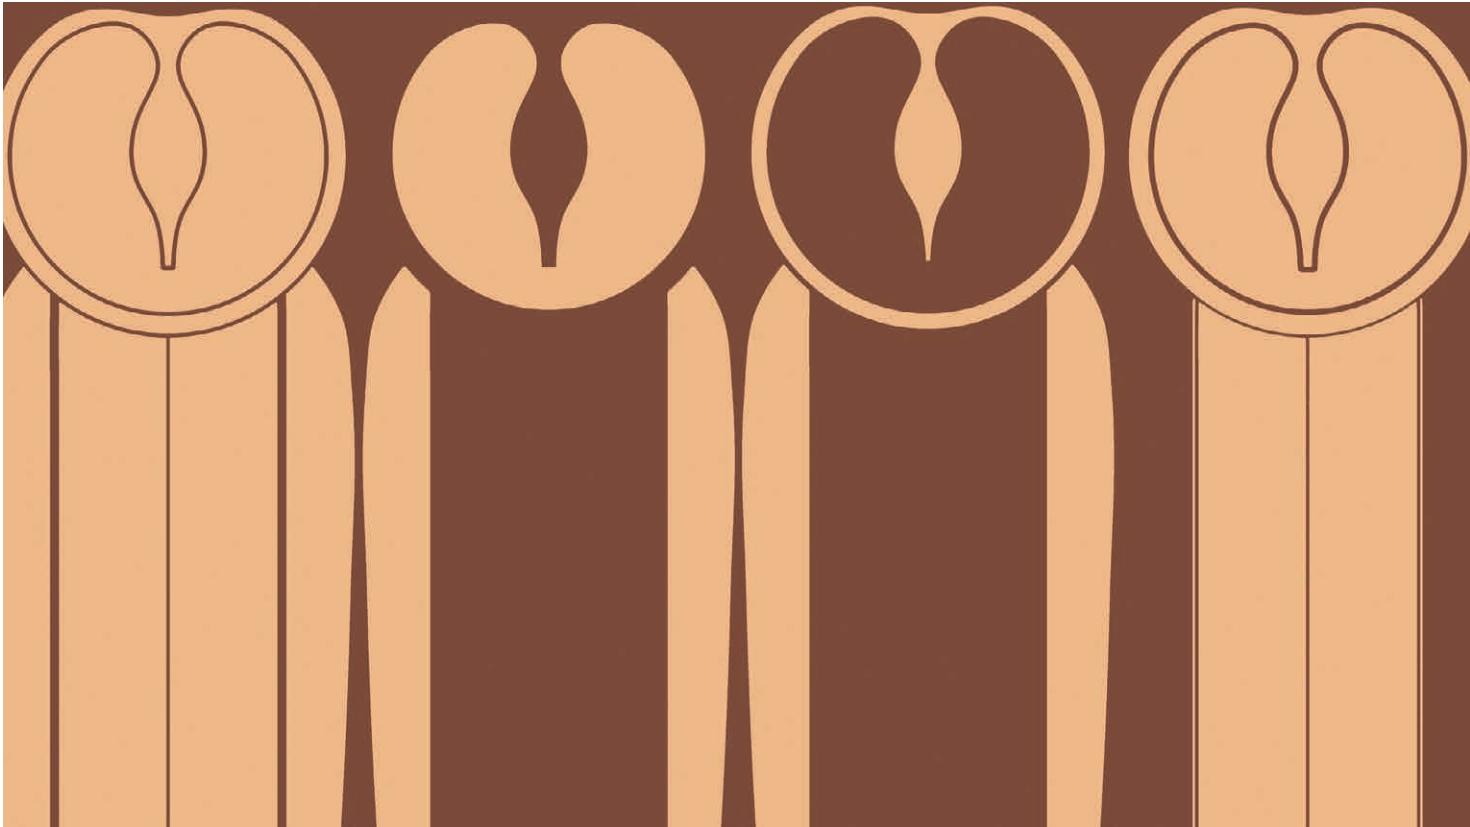

From our vast selection of burial chambers to our Made in Britain Environmental Rock products, our installations provide practical and aesthetically superior solutions within the bereavement industry and beyond.

Our chambers range in size from small cremated remains options to single, multiple and extra-large interment full body systems. They can all be installed with or without one of our many available stone memorials options.

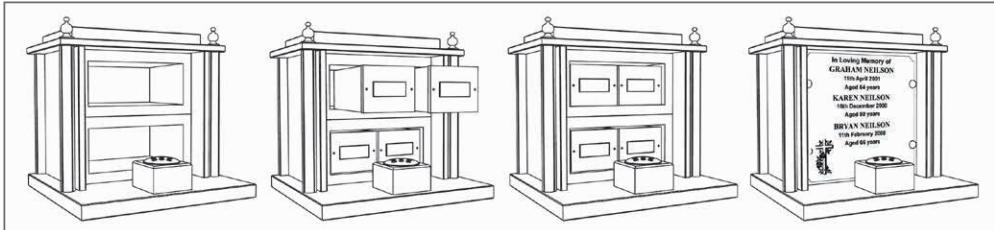

Please visit our website (www.welters-worldwide.com) or email us directly (admin@welters-worldwide.com) for further information on our products and services and to find out more about our Made in Britain philosophy.

Nature and Technology

When nature and technology merge, the results can be quite stunning. The happy little frog in this image was manufactured in cast stone. The moss has been encouraged to grow over the little fellow, creating a visually and environmentally pleasing result.

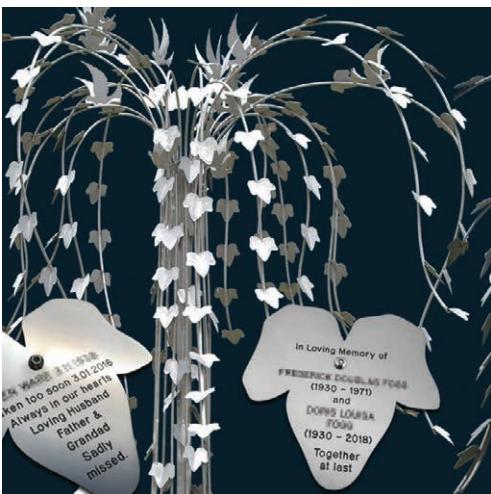

welters®

Nature and Technology

The environmental orbs in this image have, over time, become one with nature. The moss and ferns have grown over the top of the orbs, almost camouflaging them at the base of a tree where mushrooms already grow in abundance.

welters® Tree of Life Feature

A sstl tree installed on a rock-like base, stone plinth or grassy area. Inscription opportunities are available on each of the removable leaves as well as on the base, if specified.

Made in Britain with British Stone and British Manufacturing teamwork.

welters® Tree of Life Feature

The below image shows a Tree of Life Feature in situ within cemetery grounds. The feature can be installed in any number of locations.

A Curved Way of Thinking

Some interesting installations, curved to created aesthetically interesting features and to most efficiently utilise space.
